

Operations «Cost & Manufacturing» approx. 4-6 hours per week

About Zurich UAS Racing

Zurich UAS Racing (ZUR) is a student association with 70 members from over 15 study programs, united by the goal of competing in Formula Student – the world's largest engineering competition. Each year we design, build, and test an electric and autonomous race car to compete against top universities across Europe, offering students hands-on experience, project skills, and an international career network.

Your Tasks

- Your main task will be to work with other team members to create a cost explanation report and a carbon explanation report for the current race car
- You will immerse yourself in a wide variety of processes and act as the link between production and the business
- In collaboration with the mechanics, electricians and driverless teams, you will create the bill of materials (BOM) and calculate the costs and carbon footprint of the respective systems
- You will assist with the preparation and presentation of the products created at the races (Cost and Manufacturing Event)

Your Profile

- You are enrolled at ZHAW and are currently studying international business, management or business administration – other technical courses are also possible
- You are fluent in English, have a knack for presentations and are interested in finance – An affinity for technology is an advantage
- You are characterised by reliability, ambition, teamwork skills and, equally, independence
- You enjoy association life, are interested in motorsport and are motivated to learn new things

Benefits

- We offer the opportunity to gain relevant on-the-job experience and apply what you have learned during your studies

- In addition, you can join us on test days, team events and, of course, ultimately the races throughout Europe

Send us an email with your CV and cover letter to info@zurichuusracing.ch and become part of the team!
