approx. 7-10 hours per week

About Zurich UAS Racing

Zurich UAS Racing (ZUR) is a student association with 80 members from over 22 study programs, united by the goal of competing in Formula Student – the world's largest engineering competition. Each year we design, build, and test an electric and autonomous race car to compete against top universities across Europe, offering students hands-on experience, project skills, and an international career network.

Your Tasks

- You are in charge of overlooking all ongoing projects in the finance department and help out where necessary
- You will align closely with the CFO as well as the Sponsoring Lead on goals and next steps.
- The challenge is to find the balance between giving people space to do their projects autonomously and supporting them when necessary to keep on schedule.

Your Profile

- You are enrolled at ZHAW and interested in building exciting collaborations — A background in business administration or experience as project / team leader is advantageous but can also be learned on the job.
- Applications are possible from the first semester onwards and experience in team / project leadership is an advantage
- You enjoy having the overview and jumping between different projects. Also you manage your time and tasks independently and reliably.
- You enjoy participating in association life and are motivated to do more together. An interest in motorsport is a big plus

Benefits

- We offer the opportunity to gain relevant on-the-job experience and apply what you have learned during your studies
- In addition, you can join us on test days, team events and, of course, ultimately the races throughout Europe
